

Dear Parent/Carer

20 April 2022

The Geography Department at Christ the King is relaunching a fieldwork experience for our Year 7 students. This links into our Settlement and Urbanisation unit which Year 7 will be studying at the time and will also introduce key Geographic skills. Your child will be completing an hour of fieldwork on **Friday 13th May**. They will be taken from school with their class for one lesson during the day to work in small groups focusing on one particular aspect of our local area.

There is no cost attached to this trip and students will remain in uniform during the day but they may need a coat in case of inclement weather.

We in the Geography Department are firm believers in students engaging with their environment and find this experience is always a memorable event for our students.

Yours sincerely

Mr J Hudson
Teacher of Geography
