

GEOGRAPHY REVISION CALENDAR

	Monday	Tuesday	Wednesday	Thursday	Friday	Weekend
10th February	Causes of earthquakes and volcanoes at plate margins	Global Pattern of Urbanisation	Components of an ecosystem and impacts of change on ecosystems Pond case study	Development indicators, limitations of development indicators and DTM	Constructive and Destructive waves	Food, water and energy and its link to economic and social well-being
17th February	Human Fieldwork – What was the concept, why was Nottingham suitable, what were the risks, how were they managed?	Impacts and responses to Nepal and Chile Earthquakes	Causes of urban change – natural increase/push and pull factors	Global distribution of biomes	Causes and consequences of uneven development	Erosion, weathering, transportation (including longshore drift) and deposition on coastlines
24th February	Food in the UK – Changing demand, importing from LICs, all-year round produce, carbon footprints and agribusiness	Human Fieldwork – Methodology, sampling and types of data collected.	Living with tectonic hazards and Managing Tectonic Hazards	Rio – Location, Importance and causes of growth	Characteristics of Tropical Rainforests and Plant and Animal Adaptations	Strategies used to reduce the development gap
3rd March	Landforms of erosion on coastlines – bays and headlands/caves, arches, stacks and stumps	Water in the UK – Changing demand, water quality, pollution, supply and transfer	Human Fieldwork – Data presentation – methods and the reason they were chosen.	Global atmospheric circulation	Opportunities in Rio – services, resources, and economic development	Causes and Impacts of Deforestation in the Amazon
10th March	Tourism in Jamaica case study	Landforms of deposition on coastlines – beaches, spits, bars and sand dunes Purbeck Coastline case study	Energy in the UK – Energy mix, reduced domestic fossil fuel supplies, issues with access e.g. fracking	Human fieldwork - conclusions	Tropical storms – formation and features and changing distribution, frequency and intensity	Challenges in Rio – Urban growth, water, waste, healthcare, education, unemployment, transport, pollution and crime
17th March	Importance of the Amazon and methods of managing deforestation	Nigeria – location and importance (globally, regionally and locally), political, social and environmental context	Long and Cross River profiles and river erosion and transportation	Q6 Energy – global distribution of supply and demand, causes of changing demands	Human fieldwork – evaluation and limitations	Impacts and Responses – Typhoon Haiyan
24th March	Rio – Managing waste, pollution and transport	Distribution and characteristics of cold environments and their importance	Nigeria – Changing industrial structure, Shell case study	Waterfalls, V-shaped valleys, gorges, Meanders and Oxbow lakes	Q6 Energy – factors affecting supply and impacts of energy insecurity	Physical Fieldwork – What was the concept, why was Grindsbrook suitable, what were the risks, how were they managed?
31st March	Managing Tropical Storms	Rio – Urban Planning to improve lives of the poor – favela Bairro project	Plant and animal adaptations in cold environments	Nigeria – changing trading relationships, types of aid and impact of aid	Levees, flood plains and estuaries River Tees Case Study	Q6 Energy – strategies to increase energy supply – renewable and non-renewable sources
7th April	Physical Fieldwork – Methodology, sampling and types of data collected.	Extreme Weather in the UK and Beast from the East	Nottingham – location, importance, impacts of migration on character	Opportunities in cold environments: Alaska	Nigeria – environmental impacts of economic development and effects of development on quality of life	Hard and Soft engineering on coastlines and Holderness Case Study
14th April	Q6 Energy – Advantages and Disadvantages of Natural gas	Physical Fieldwork – Data presentation – methods and the reason they were chosen.	Climate Change – Evidence, causes and impacts	Nottingham Opportunities – Cultural Mix, recreation and entertainment, employment, urban greening.	Challenges in cold environments: Alaska	UK – Causes of economic change and move towards a post-industrial economy
21st April	Causes of flooding and flood hydrographs	Q6 Energy Conservation – homes, workplaces, demand reduction and technology	Physical fieldwork – Description, analysis and explanation of the results.	Climate Change – Mitigation and Adaptation	Nottingham Challenges – deprivation, housing inequalities, education, health employment, dereliction, waste disposal, greenfield and brownfield, urban sprawl	Managing Cold Environments
28th April	Impacts of industry on the physical environment and Torr quarry example	Hard and Soft River engineering Banbury Case Study	Q6 Energy – Chambamontera	Physical fieldwork - conclusions	Tectonic Hazards Revision	Ecosystems revision
5th May	Coasts Revision	Tropical Storm and Extreme Weather in the UK revision	Tropical rainforest revision	Rivers Revision	Climate Change revision	Cold Environments revision
12th May	Rivers and Coasts Management Revision	Go Over your Paper 1 Revision notes and Knowledge Organiser	Paper 1	Urban Regeneration – The Island Quarter, why it was needed and its impacts.	Social and economic changes in the rural landscape in South Cambridgeshire and Outer Hebrides	Go over food, water and energy and its link to well-being
19th May	Physical fieldwork – evaluation and limitations	Nottingham Integrated Transport System	Improvements in road, rail, ports and airports in the UK	Go over food, water and energy in the UK	Jubilee Campus – sustainability of water, waste, energy and green space	The North-South Divide in the UK and strategies to reduce regional differences
26th May	Go over natural gas case study	Go over Rio Case Study	UK in the wider world – trade, culture, transport and electronic communication. Economic and political links – EU and Commonwealth.	Go over gas, Chambamontera and strategies to make homes, travel and work more sustainable.	Go over Nottingham Case Study	Go over Nigeria Case Study
2nd June	Go over UK Case Study	Paper 2 Practice questions	Go Over your Paper 2 Revision notes and Knowledge Organiser	Go Over your Paper 2 Revision notes and Knowledge Organiser	Paper 2	Go over Human Fieldwork
9th June	Geographic Skills	Go over physical fieldwork	Read Pre-Release in detail and practice your responses to the decision question	Paper 3		
Paper 1	Challenges of Natural Hazards		The Living World		Physical Landscapes of the UK	
Paper 2	Urban Issues and Challenges		Changing Economic World		Resource Management	
Paper 3	Pre-Release		Unseen Fieldwork		Your Fieldwork
